

Welcome to Mackenzie's Youth Leadership Council!

Go to menti.com on your phone and type in the code listed above. The answers will be anonymous, but will be shown people in Mackenzie. So keep in mind, is what I put in this survey something I want the mayor to read?

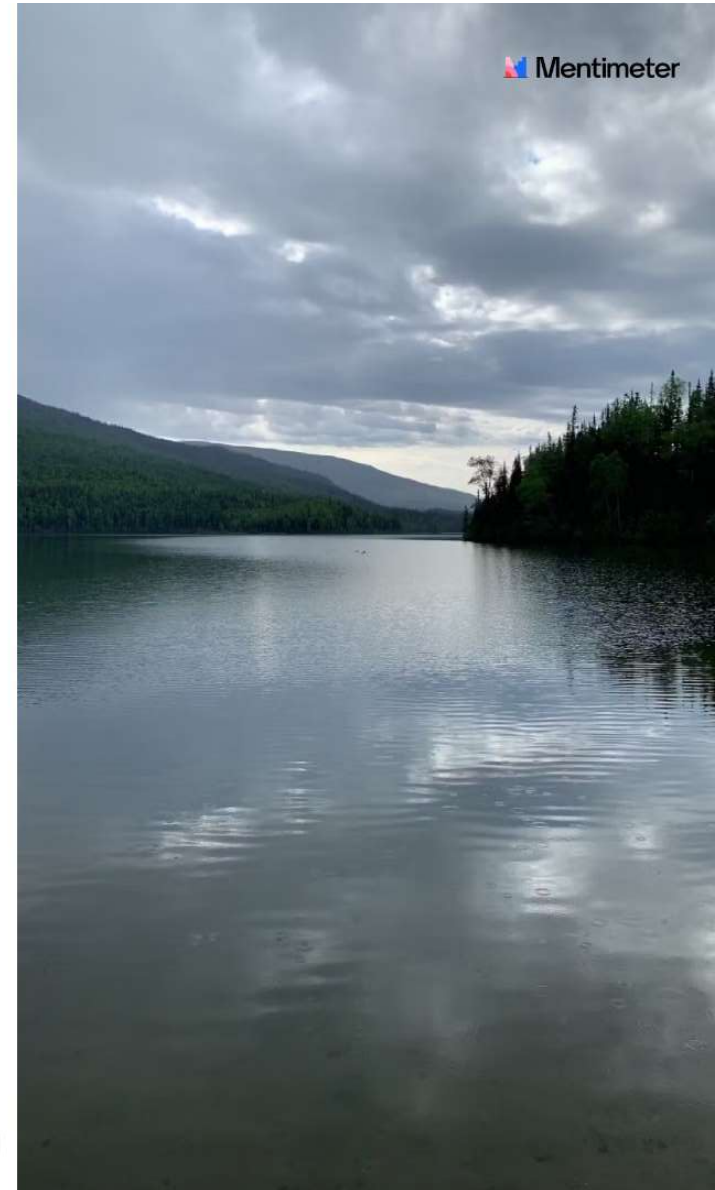

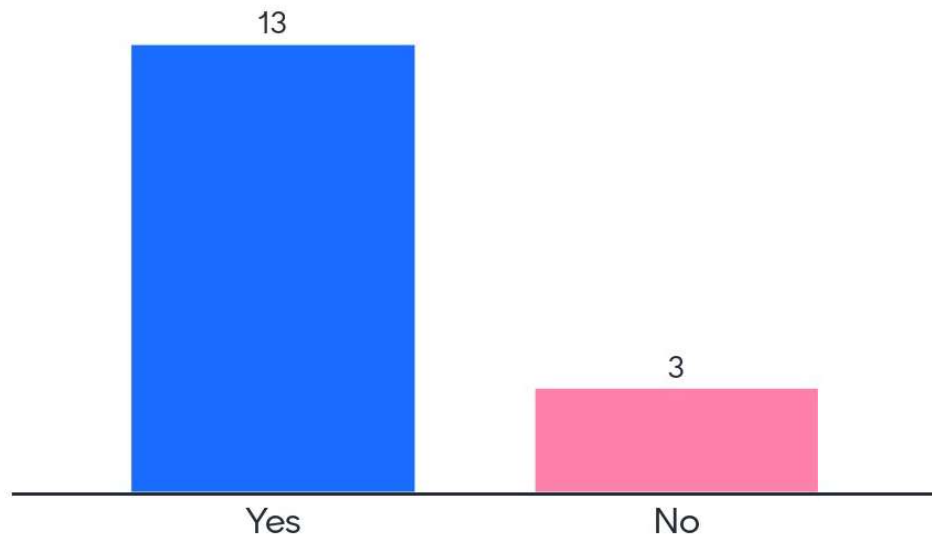

What emotion describes how you are feeling right now?

Do You Like Living in Mackenzie?

What is the best thing about living in Mackenzie?

16 responses

The outdoors

There is lots of outdoor stuff to do

The cold, fresh air and how great the people are here, it's very beautiful here

Small community & not a big school so it's easy to find my way around the town & school

Every thing is really close and convenient to get to

The friends I make

The outdoors and relatively tightknit community

You can walk everywhere

I like how it is a pretty safe place to live, I have a nice home and stuff, i have good friends

What is the best thing about living in Mackenzie?

Can think of anything

All my friends and the fun outdoor things that are here. I love it when it is fall because it's very beautiful

I like my 40 minute bike ride without traffic

mainly because you can get used to the town very quickly if you aren't a city person.

I really enjoy the opportunity that this town gives to interact with people and also how much sleep I get

Can walk anywhere

i don't really know, there isn't a lot to do

Describe what its like being a youth/student in Mackenzie in 1 word.

If you could change one thing about Mackenzie to make it better for people your age, what would you change?

18 responses

More things to do

More color around the town & have a Tim hortons

get more teen friendly areas where we aren't looked at delinquents, like an arcade, or something

more things to do and better opportunities for jobs, education, stuff like that and more fast food stuff honestly lol

Encourage real communication instead of the constant negativity spewing out of people's face holes

More places to hang out, bringing back the theatre, arcade, etc. More people

I would like the Tim Hortons, I want a donut

Have a better academic system so when people move there not really far behind every one

more stores and malls, like tim hortons and a spencers there was supposed to be an a&w at one point.

18 responses

I would have more diverse activities in public. As of now it is all outdoors and there is nothing to do other than the outdoors.

More advanced classes, we don't even have calculus, more teachers, find ways to get kids to move faster/learn more in school

sport chec

Get students more engaged both in and out of school

I would like more places to go, a place to go a hang out with your friends

More academic stuff

Encourage business owners to bring their business in town

One board shop or sport store

More job opportunities in town for students would be great

How would you feel if I told you that you would still be living in Mackenzie 20 years from now?

Beyond Thrilled

Devastatingly Sad

What is a question you would want to ask the leaders of Mackenzie? (the mayor, mla, prime minister, principals...etc).

The plan is to show these answers to adult leaders in Mackenzie, is there anything you want them to know that you have not already typed?

Can you get us better restaurants bc all of the ones here lowkey kinda suck...also a Walmart would be great, same with a Tim hortons & we need a better mall & make it almost like the one in prince

Can we get a timmys

i would love to have more shopping here, walmart, sport chec, tim hortons. a movie theatre and like idk fun stuff to do

That it's boring. We need more places, more housing, more activites to attact people to come here and make this place lively again. It's just been sad in Mackenzie

hey, do you think we should have a red robin? (restaurant)

Youth should have more say in the government as we are the future of the town.

mackenzie used to have an outdoor pool we should get that back please????

We dont need a walmart its a comvinience not a need

Also we need an actual therapist in town bc counseling isn't enough & doesn't help
