

District of Mackenzie Official Community Plan Update - What we Learned Report #2

The District of Mackenzie (The District) is updating its Official Community Plan (OCP) to guide the community's development over the next 20 years. The first phase of community engagement focused on gathering input about the community's vision for Mackenzie, identifying community values, and outlining directions for the OCP chapters.

The District has now completed the final phase of public consultation which ran during the months of September to the end of October 2025. Residents were invited to give their feedback on the draft OCP which was developed and updated using community input collected during the Phase 1 engagement period. Resident input on the draft OCP was collected through a community survey which was advertised through platforms including the District's social media pages, the dedicated project webpage, and a community-wide mailout. The online survey was open from September to the end of October 2025 and received a total of 5 responses. The survey was also available via fillable PDF and a printed copy.

A summary of the public engagement statistics is below:
